(Special to The Builetin.)

Hartford, March 20.—After a week's absence, Speaker Frank El. Healey was in his place and, after a prayer teerning with patriotism by Chaplain Benedict, the routine business proceeded, and without opposition and consequent delay. There came from the senate a large volume of business, under favorable report, in which the house concurred, thereby disposing of a big batch of legislative business and clearing the decks for action in constructive legislation.

Implication would not prevail, as perhaps Mr. Rogers of Mancheser and himself would like to be heard. The call for nevious question prevailed by a vote of 145 to 50. The closing argument was made by Leader Peasley. The report was accepted and the bill rejected.

When your kidneys hurt and your back feels sore don't get schred and proceed to load your stomach with a lot of drugs that excite this kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much: also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. The famous salts is made from the acid of grapes and lemon inice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot in iure: makes a delightful effervescent lithia water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking.
